

**EoP on Indigenous peoples**

**L.26.REV1**

**(to be delivered after adoption and if there is a PBI)**

I have the honour of delivering this statement on behalf of the European Union and its Member States on resolution L.26 Rev 1

We are pleased to join consensus on the adoption of the present resolution.

However we regret that the Secretariat has confirmed only yesterday that this resolution has programme budgetary implications. In this context – and in particular given the prolonged discussions leading up to today's adoption – we would like to underline the importance the EU attaches to full compliance with rule 153. In this regard, we would like to re-emphasise the need to receive, in a timely manner, full and comprehensive information on the possible budgetary implication of any proposed resolution which is under discussion. The adoption of the resolution today is therefore without prejudice to the discussions in the 5<sup>th</sup> committee on the estimates presented.
